

Falling, In Love (with Blu)

by

Sorashido

Falling, yet cannot fly.

Broken wing.

I see him falling toward me.

He catches me.

Unchained, yet chained together.

He stares into my eyes.

We kiss,

My heart soars.

Two hearts beat as one.

Words cannot describe how I feel.

This is more than friendship.

Could it be love?

Two wings outstretch,

Carry me to safety.

We land.

He stands by me.

From this day on my life will never be the same,

Our lives will never part,

'Cause he is there for me.

Now our love has borne fruit.
